## Ciprofloxacin Tablets USP 500 mg

### Composition:

Each film coated tablet contains:

Ciprofloxacin Hydrochloride USP  
equivalents to Ciprofloxacin 500 mg  
Excipients q.s.

Approved Colour Used

### Description :

Ciprofloxacin is a synthetic chemotherapeutic antibiotic of the Fluoroquinolone drug class. It is a second generation Fluoroquinolone antibacterial. It kills bacteria by interfering with the enzymes that cause DNA to rewind after being copied, which stop DNA and protein synthesis.

### Indication:

Lower respiratory tract infections due to Gram-negative bacteria, Chronic suppurative otitis media, Acute exacerbation of chronic sinusitis, Urinary tract infections, Gonococcal urethritis and cervicitis, Epididymo-orchitis, Pelvic inflammatory disease, Infections of the gastro-intestinal tract, Intra-abdominal infections, Infections of the skin and soft tissue, Malignant external otitis, Infections of the bones and joints, Prophylaxis and treatment of infections in neutropenic patients, Prophylaxis of invasive infections, Inhalation anthrax, Broncho-pulmonary infections in cystic fibrosis, pyelonephritis, severe infections in children and adolescents.

### Contra-indication:

Hypersensitivity to the active substance, to other quinolones or to any of the excipients and Tizanidine.

**Adverse reaction :** The most common side-effects are diarrhoea. Rare side-effects include anaemia, leukocytosis, thrombocytopenia and allergic reactions etc.

### Drug Interactions :

Sucralfate or antacids, Probenecid, Tizanidine, Methotrexate, Theophylline, Oral anticoagulants, Ropinirole and Clozapine.

**Pregnancy and lactation :** Not Recommended.

**Dosage :** As directed by the Physician.

**Storage :** Store in a dry place, below 30°C temperature. Protect from direct sunlight.

**Caution:** Keep the medicine away from children.
