2mg / 5ml

Cyproheptadine Hydrochloride Syrup

Composition:

Each 5 ml contains:

Cyproheptadine Hydrochloride
(Anhydrous)

BP 2 mg

Flavored syrup base

qs

Colour: Approved colour used

Uses: Cyproheptadine is an antihistamine used to relieve allergy symptoms such as watery eyes, runny nose, itching eyes/nose, sneezing, hives, and itching.

It works by blocking a certain natural substance (histamine) that your body makes during an allergic reaction. This medication also blocks another natural substance in your body (serotonin). This medication should not be used in newborn or premature infants.

Side Effects: Drowsiness, dizziness, blurred vision, constipation, or dry mouth/nose/throat may occur. If any of these effects persist or worsen, tell your doctor or pharmacist promptly. To relieve dry mouth, suck (sugarless) hard candy or ice chips, chew (sugarless) gum, drink water, or use a saliva substitute.

A very serious allergic reaction to this drug is rare. However, get medical help right away if you notice any symptoms of a serious allergic reaction, including: rash, itching/swelling (especially of the face/tongue/throat), severe dizziness, trouble breathing.

Precautions: This product may contain inactive ingredients, which can cause allergic reactions or other problems. This drug may make you dizzy or drowsy or cause blurred vision. Do not drive, use machinery, or do any activity that requires alertness or clear vision until you are sure you can perform such activities safely. Avoid alcoholic beverages. During pregnancy, this medication should be used only when clearly needed. Discuss the risks and benefits with your doctor.

Interactions: Drug interactions may change how your medications work or increase your risk for serious side effects.

Overdose: Symptoms of overdose may include: severe drowsiness, seizures, widened pupils. In children, mental/mood changes (such as restlessness, irritability, hallucinations) may occur before drowsiness.

Dosage: As directed by the physician.

Store in a cool, dark & dry place, below 30°C.

Keep medicines out of reach of children
