Gendex

Composition:

Gentamicin Sulfate BP	
Eq. to Gentamicin	0.3% w/v
Dexamethasone Sodium Phosphate BP	0.1% w/v
Benzalkonium Chloride Solution BP	
(As Preservative)	0.02% w/v
Sterile Aqueous Base	q.s.

**Gentamicin and
Dexamethasone Eye/Ear Drops
10 ml**

Indication:

Gentamicin: Indicated for the treatment of severe infections of the anterior segment of the eye, primarily caused by *Pseudomonas aeruginosa*.

Dexamethasone: Inflammation of the anterior segment of the eye.

Side effects:

Increased intraocular pressure, corneal thinning, cataracts, and fungal infections.

INDICATIONS AND USE:

Ophthalmic

Steroid-responsive inflammatory conditions of the palpebral and bulbar conjunctiva, cornea, and anterior segment of the globe, such as allergic conjunctivitis, acne rosacea, superficial punctate keratitis, herpes zoster keratitis, iritis, cyclitis, and selected cases of infectious conjunctivitis where the use of steroids is warranted to reduce edema and inflammation; corneal injuries due to chemical or thermal burns, or foreign body penetration.

Auricular

Patologias inflamatórias que respondem aos esteroides do meato auditivo externo, como otite externa alérgica, otite externa infecciosa purulenta e não purulenta externa, quando o perigo de uso de esteroides é aceite para obter uma diminuição aconselhável em edema e inflamação.

Dosage: As directed by a physician.

Use the solution within one month of opening.

CONTRAINDICATIONS: Hypersensitivity to any component of the product.

Code No.: HP/Drugs/05/185

EXTERNAL USE

Shelf life: Refer to carton & label
